The Coronation Britannia

2023 BULLION COIN RANGE

Recognised and trusted around the world, the Britannia bullion coin is sought after by investors and institutions alike. The female icon first appeared on Britain's circulating coinage in the seventeenth century, during the reign of Charles II, and has evolved through the ages to reflect the nation she represents.

Now, to honour and celebrate the coronation of His Majesty King Charles III on 6 May 2023, The Royal Mint has struck a one ounce Britannia bullion coin range featuring the crowned coinage portrait of His Majesty The King.

KEY FEATURES

- Made to mark the coronation of His Majesty King Charles III
- The obverse features the first crowned coinage portrait of His Majesty The King, designed by Martin Jennings
- Philip Nathan's classical interpretation of Britannia graces the reverse of the coin
- The iconic Britannia design includes four advanced security features
- Available as a one ounce gold and one ounce silver bullion coin in limited numbers
